PROFESSIONAL EXPERIENCE

Business Operations & Data Management Specialist

Hunan, China

Hunan Lvteng Education Technology Co., Ltd.

Nov 2022 - Feb 2025

Data Management & Business Analytics

- Built and maintained the company's admissions data management system from the ground up, standardizing records for universities, programs, and admission outcomes to improve data accessibility and consistency.
- Developed and managed centralized databases covering client information, financial records, and business operations, improving data visibility and cross-functional coordination.
- Created and maintained admission analytics dashboards, tracking acceptance outcomes across Top 100, Top 50, and other target universities to support strategic planning and client advisory services.
- Produced regular reports on client pipelines, financial performance, and business conversion metrics to support operational decision-making.

Process Improvement & Operational Support

- Streamlined client document workflows by establishing standardized procedures for information collection, organization, and delivery, reducing repetitive revisions and administrative workload.
- Improved reimbursement, expense tracking, and reconciliation processes by developing internal operating procedures that continued to be used across the organization.
- Managed contracts, company licenses, corporate seals, and key business documentation to ensure operational compliance and document integrity.
- Designed promotional materials, admission result reports, and content layouts for marketing and business development initiatives.

Corporate Operations & Project Coordination

- Supported the company's growth from an early-stage startup environment by participating in operational infrastructure development and office expansion projects.
- Independently handled corporate registration, shareholder changes, legal representative updates, trademark applications, bank account updates, tax registration, and social insurance administration.
- Led the administrative coordination of company relocation projects, including business registration transfers, tax administration transitions, social insurance migration, and banking updates, ensuring uninterrupted business operations.
- Coordinated vendors and service providers for office infrastructure setup, including internet services, office equipment, and facility-related projects.

Corporate Operations & Project Coordination

- Independently prepared and optimized 50+ academic CVs for international university applications, tailoring content and structure to program requirements.
- Supported 30+ long-term clients throughout the application lifecycle, including profile evaluation, school selection research, document preparation, and progress tracking.
- Conducted research on university programs, admission requirements, and historical admission trends to support application strategy development.

Finance & Operations Assistant

Hunan, China

Hunan Huicheng Education Training Co., Ltd.

Apr 2021 - Mar 2022

- Managed financial transaction records, invoice processing, and tax control system operations
- Developed operational tracking reports (revenue, attendance, administrative data) for internal management use
- Supported office operations and asset management to ensure stable daily workflow execution

Editorial & Quality Control Assistant

Hunan, China

Hunan Zhuoyue Cultural Communication Co., Ltd.

Mar 2019 - Jan 2020

- Performed quality control on educational publishing materials including proofreading, formatting, and content validation
- Ensured consistency and accuracy across large-scale document sets
- Developed strong detail-oriented review processes with low-error execution standards
